CAPABILITIES & SERVICES
Cutting: 100 band saws in operation - vertical saws that can cut 1,250mm x 1,250mm x 3,600mm long to 260mm band saws.
Machining: Grinder with a capacity of 750mm x 500mm and two milling machines, the largest having a capacity of 2,600mm x 720mm.
Heat Treating: Our production mills in Austria and Sweden are equipped with state-of-the-art heat treatment facilities. Details on heat treatment can be found in the various product information brochures and in support information. For information on local heat treatment please contact your local branch.
Logistics: Before any product can be accepted into our stores, goods must have been checked against the paperwork for conformance. With over 11,000 line items, our stores are organised to ensure prompt accurate delivery, with corresponding paperwork and full product traceability. Customer's will be advised as soon as it becomes evident if delivery within 24 hours cannot be met.
