

Company Overview

Engineering Plastics Australia

Capability Statement:

Dotmar Engineering Plastic Products was founded in 1967 and in 2017 celebrates 50 years of service to a multitude of customers across Australia & New Zealand.

As the world around us changed, so have we - evolving continually to provide the right product and the right solution to the market. This evolution and the ever growing product and application portfolio has led to another change - being known as Dotmar Plastic Solutions. Dotmar is currently one of the largest importers, distributors and machinists of thermoplastic stock shapes, polyurethane and conveyor components in Australia and New Zealand.

Dotmar has built up its market-leading position by delivering a high level of customer service and applications advice, supported by a deep level of technical expertise. We offer an extensive knowledge base coupled with strong partnerships across an impressive list of world leading manufacturers.

Our focus is the technical application of thermoplastic materials in a number of vast range of industries, ranging from mining, pharmaceutical and materials handling to architectural products and design. Dotmar excels in distribution, technical support, material selection and applications development.

Part of the MM Plastics family, Dotmar has a number of sister companies which even further broaden its offering to the market.

Technical Specifications

PRODUCTS & SERVICES

Dotmar plastics not only provides the highest quality sheet and rod products sourced from Europe and the US, but is also technically equipped to facilitate many of the fabrication, machining, moulding and extrusion requirements to meet each and every customers individual needs.

Dotmar offers the following services:

- Custom machine plastic parts
- Cut to size service
- Plastic fabrication
- Tygaflor Heatbelt manufacturer
- Flow promotion lining installation
- Steel replacement
- Timber replacement
- Rubber replacement
- Polystone fender installation & refurbishment
- Eurobelt conveyor belt assembly
- Laser cutting
- Water jet cutting
- Plastic extrusion
- Injection moulding
- Project management

PRODUCTS SUPPLIED

- Advanced Engineering Plastics
- Nylon
- PTFE
- UHMWPE
- Plastic Profiles
- Matrox
- Orkot
- Nuvex
- HDPE
- Foam PVC
- Uniboard
- PETP
- Polycarbonate
- Trobloc
- Stableboard
- Acrylic
- Boatboard
- PVC
- Polyurethane
- Polypropylene
- Aluminium Composite Panel
- Acetal
- PTFE Coated Fabrics (Heatbelts)
