PRODUCTS

Robotics (ECMA- electronic components manufacturing, assembly)

Complete fabrication, electronic component assembly and project management solutions for all types of robotics for heavy industry, mining and automated production solutions

Parking Meters-Unique is one of Australia's leading pay and display ticket machine manufacturers. Complete turn-key manufacture from small to large mass production orders. We also specialize in information kiosks, pump assemblies and security module manufacture.

Security Modules-Take advantage of our decade long experience in production and assembly of security modules. Complete project management solutions available'

Electrical Enclosures-Our electrical enclosures are manufactured to highest industry standards. We specialise in production of steel, stainless steel and aluminium enclosures

Information Kiosks-We specialise in manufacturing and assembly of all type of information kiosks - photo kiosks, government, airlines, internet, music, retail loyalty, HR and financial services

HVAC Equipment

Recognising the importance of the HVAC Industry in Australia, UniQue Metals Laser has opened up a new wholly owned subsidiary company called 'AirQvent' to service the HVAC Market with quality products, technical expertise and professional service.

Metal Art & Design

One of the special features of our company are Metal Art products and Product Design services. Through our Unique 8 Design Studio we specialize in design and development of Metal Art products. So under one roof you can get everything from a creative concept, production to final installation.

Screening

Introduces stylish & durable screening solutions for your home. Unlike timber, Loc-It doesn't warp, crack, shrink, stretch, split or twist and does not require constant painting.

Product range (patio enclosures, balustrading, sunshade screening, gates and fences, louvre look awnings)

Hospitality / Kitchen

Unique specialise in the supply & fabrication of all types of steel kitchen equipment, commercial and domestic, standard or custom made, (benches, sinks, hoods, splashbacks, surrounds and flues).

CAPABILITY AND SERVICES

Materials-We work with stainless, aluminium, mild steel, haste alloy, titanium, zinc anneals, bisalloys, galvabond, inconel, and much more.

Precision Laser Profile Cutting-One of Australia's leading laser 2D and 3D cutting companies (link) utilizing the latest cutting technology of four laser cutting machines 24 hours a day.

Project Management-Our senior project management team takes responsibility for management of all operations from initial tender brief through to project close out.

Turnkey Manufacturing-At Unique we specialize in streamlined, on time, turn-key manufacturing projects that are tailored specifically to your manufacturing needs.

CAD-CAM Programming -Highly proficient in programming designs through all major types of software packages

CNC Punching-Utilises the latest in punch technology. These state of the art machines are controlled by the latest in Computer Aided Design packages.

Guillotining-Our CNC Guillotines can cut up to 4m x 6mm thick materials, accurately every cut..

Plate Rolling -Can accurately roll plate through our power driven plate rollers (2500mm wide x 10 mm thick mild steel)

Coil processing -Can process coil into sheets to your desired length. Our coil line can accurately cut to width and length +/- 2 mm (Mild steel 2mm coil, aluminium, st/steel, c/bond, galv and zinc, 1500mm wide coil, maximum weight 3000 kg, maximum 6 slits per sheet width).

CNC Bending-Utilises the latest in Press Brake technology and currently operate seven CNC Press Brake machines (**Maximum length 6000mm - 400 Tonne**).

Welding-Has multiple TIG and MIG bays staffed by highly qualified welders. Unique can also provide robotic welding service which is second to none in Australia

Polishing- Handles high quality finishing of stainless steel and various metals through its fully extracted finishing cell. Let Unique finish your job for a quality finish.

Surface Treatment-Can surface finish your products by powder coating, galvanizing, or plating all to Australian standards

Site measure and installation -Offers a complete site measure and installation services for qualifying types of fabrications projects

Delivery-Can deliver anywhere in the metro area. Take away the hassle and let Unique deliver your job
