EMICoL Website Launch

EMICoL Website Launch

Western Australian Cooperative EMICoL Launch Unique website

www.emicol.com.au

Members and Associates of the Engineering and Manufacturing Industry cooperative Limited (EMICoL) were extremely thrilled to see their new website launched by our Sponsor Sushi Digital at last week's AGM hosted at Eastern Metropolitan Regional Council premises.

The development of the website was a major objective set by EMICoL Directors for this year and throughout the process our Cooperative experienced growth in both sponsorship and membership.

EMICoL is now a very dynamic and progressive Western Australian engineering clusters group and despite a downturn in the economy we remain strong and well supported by our sponsors (Bohler Udderholm & Sushi Digital) and members (Avtech Engineering, Challenge Chemicals Aust, Diverse Engineering, CVR Crushing Equipment, Goodwill Engineering, Grundfos Pumps, Kingston, Inter

Steel, Lightspeed Communications, Matchtech services, Panther Powdercoating, Pedco Engineering, Pirtek Malaga, Precision Jobbing, Prime Motion & Control, Precision Sheet Metal, Primary Sales, Project Industries, Southern Wire, WA Tooling, Wallis Drilling, West Coast Fasteners).

The impressive features of our website make it very easy for the user to browse and find what they require from the many local talents from each of the above Companies, including full breakdowns on their capacities and capabilities.

Some of our members do not have their own websites and can see major benefits from being recognized on the World Wide Web through EMICoL.

Visit www.emicol.com.au and see how easy it is for you to find CNC Machinist, Fabricators & Welders, Material Processing and Parts & Accessories for your Companies.

Since its inception in 2007, EMICoL members have worked together to provide numerous Clients with service and products that match the requirements of Australian and International standards. The quality goods produced for their clients either individually or collaboratively is testament to the capability within the group.

The EMICoL website also reflects how strong our relationships and alliances are with our Associates (Eastern Metropolitan Regional Council, Enterprise Connect, Chamber of Commerce & Industry, Australian Steel Institute). The support that all of these organizations offer to EMICoL is very ingeniously and graphically recognized on our website and extremely appreciated.

Our Board of Directors are very committed to further development of the website for new and existing sponsors and members. If you are interested in joining our cluster group of industries predominantly made up of businesses in the manufacturing, engineering, mining and fabrication sectors then be sure to check out www.emicol.com.au today and fill in the on line application form.

For information please contact Director & Vice Chairman John Morris on 0400 110 911 or make your request through the EMICoL website.
